Profile

Visual designer working since April 2022, using AI since March 2023. Experience spans commercial visuals, illustration and character artwork, with Photoshop and ComfyUI-based image workflows.

Experience

Xi'an Jiahe'ai Xinli

Xi'an | 2023.08 - 2026.09

- Created course visuals, illustrations, character artwork, stickers and print materials.
- Supported video editing, recording and live-stream switching for course communications.

Tianjin Tailing Hongye Keji Co., Ltd.

Tianjin | 2022.04 - 2023.06

- Produced product photography, long-form product graphics and WeChat visual content.
- Designed offline materials, presenting product information through clear visual layouts.

AI Workflow Practice

Custom ComfyUI Nodes

- Used Codex to assist implementation of custom ComfyUI nodes, exploring subject preservation and layered compositing.
